## 2. Compensation of covered clients and payment formalities

---

### 2.1 Failure of a member of the Fund to fulfil its obligations toward its investors

The Fund compensates the covered clients for claims arising from the covered services provided by its members as long as failure, by the member, to fulfil its obligations has been ascertained notwithstanding a relevant obligation by the member of the Fund in accordance with the legislation and the terms which govern the agreement between the member and the covered client and regardless of whether the said obligation of the member of the Fund is based on the agreement and/or on wrongdoing.

Failure by a member of the Fund to fulfil its obligations consists of its failure to:

- ✚ Either to return funds owed to its covered clients or funds which belong to them but are held by the member, directly or indirectly, in the framework of the provision by the Fund member to the said clients for covered services, where the latter (in exercise of their relevant right) requested the member to return, or
- ✚ to hand over to the covered clients financial instruments which belong to them and which the member of the Fund holds, manages or keeps on their account, including the case where the member is responsible for the administrative management of the said financial instruments.

### 2.2 Preconditions for the initiation of the compensation payment procedure by the Fund

- ✚ The Fund initiates the compensation payment procedure when:
- ✚ the member of the Fund submits to the Fund or to Cyprus Securities and Exchange Commission (CySEC), a written statement declaring its failure to fulfil its obligations toward its clients
- ✚ the member of the Fund files an application for liquidation
- ✚ CySEC has revoked or suspended the member's authorization to provide investment services and ascertains that the member of the Fund is not expected to be in a position to fulfil its obligations toward its clients in the near future, for reasons which do not concern a temporary lack of liquidity which can be dealt with immediately.

CySEC may request by the member of the Fund to set out its views within a short deadline, which cannot be less than three working days from the date of the invitation to set out such views.

### 3. Procedures

---

#### 3.1 Procedure relating to the invitation of covered clients to submit applications

Upon issuance of a decision by the Court or by CySEC, on the commencement of the compensation payment process, the Fund publishes in at least three newspapers of national coverage, an invitation to the covered clients to make their claims arising from covered services, against the member of the Fund, designating the procedure for the submission of the relevant applications, stating the deadline for their submission and the content therein.

The publication contains at least:

- the name and address of the headquarters of the member of the Fund, in favour whom the covered client compensation process has been activated through the Fund
- the deadline for the submission of compensation applications, which cannot be less than five months and greater than nine months from the last relevant publication
- the mode and address of submission of applications
- the address at which investors may be informed about the exact content of the applications to be submitted, and receive the relevant form provided by the Fund.

#### 3.2 Interruption of deadline for submission of applications

In case a covered client, and provided it was not his fault, was neither informed about the invitation to submit compensation applications nor in a position to submit within the deadline this application, the deadline is interrupted provided that an interruption of the deadline arises in case of an event of force majeure, and as long as this has been proved that the keeping of the deadline for the submission of compensation applications or the collection and submission of the required information were prevented.

Indications that the covered client has an impediment for which he is not responsible, and which forms a reason for the interruption of the deadline for the submission of a compensation application include especially:

- ✚ evidenced and proven absence of the covered client abroad for a period which includes at least half of the deadline for the submission of a timely application;
- ✚ illness confirmed by a doctor that it forms a serious impediment for the submission of an application for a period which includes at least half of the deadline for the submission of a timely application; or
- ✚ staying in a correctional institution for a period which includes at least half of the deadline for the submission of a timely application.
- ✚ a covered client who submits a late application to the Fund for the payment of compensation is obliged to submit, in addition to the information forming the necessary minimum content of the application a solemn declaration stating the reason for which he was not in a position to claim compensation on time, attaching the necessary supporting evidence to prove his allegations.

### 3.3 Content of compensation applications submitted to the Fund

The compensation applications of covered clients with which they make their claims against a member of the Fund are submitted to the Fund in writing. The compensation applications must include:

- ✚ the name of the claimant;
- ✚ the address, telephone and fax numbers as well as any email address of the claimant;
- ✚ the client code that the claimant was given by the member of the Fund;
- ✚ the particulars of the covered services agreement between the Fund and the claimant;
- ✚ the type and amount of the alleged claims of the claimant; and
- ✚ the exposition of the particulars from which, the alleged claims of the claimant and the claim amount derive.

The Fund may request to receive more information in addition to the application for compensation, which they then communicate it with the relevant publication in at least three newspapers of national coverage as well as in the Official Gazette of the Republic and keep a record of this information at the disposal of investors, at the Fund's offices and/or at the offices of the member of the Fund.

### 3.4 3.4 Procedure relating to the recording and evaluation of the alleged compensation claims

The Fund designates at least one qualified auditor and at least one lawyer with expertise on capital market issues, who upon checking the prerequisites, they evaluate the claims submitted to the Fund and recommend to the Administrative Committee their acceptance in total/partly or their rejection. In case of different view/decision between these persons, each one them submits a separate recommendation. Their remuneration is agreed between the Fund and these persons and burdens the member of the Fund, and, if required, is paid by the Fund.

These persons in order to evaluate the applications they:

- ✚ ask the member of the Fund to express an opinion about the grounds of the claims alleged by the claimants and, in case of doubt, to present the relevant supporting documents;
- ✚ evaluate, based on the information received, the applications, determining the amount of the compensation for each claimant.

These persons have full access to the records kept by the member of the Fund, in order to accomplish their mission, and they are obliged to exhibit confidentiality against any third party as to the information coming to their awareness in the exercise of their duties provided that the said obligation of confidentiality is disregarded in order to render the exercise of their duties possible.

### 3.5 Decision of the Administrative Committee on submitted application

Upon submission of the application the Administrative Committee takes over and has full authority where:

- ✚ the claimant falls within the category of covered clients
- ✚ the application was timely submitted

- ✚ the conditions of legislation and of this Policy for the valid submission of compensation applications are fulfilled.

The Administrative Committee rejects the application in case the claimant does not fulfil the above conditions or, if at the Administrative Committee's discretion, there exists at least one of the following reasons:

- ✚ the claimant used fraudulent means to secure the payment of compensation by the Fund, especially if he consciously submitted false evidence;
- ✚ the damage suffered by the claimant substantially derived from concurrent negligence or offence on his own behalf in relation to the damage it suffered and to its underlying cause.

At the examination of the applications, the Administrative Committee takes into consideration the recommendations of the designated persons and decides on the applications submitted to the Fund determining the amount of the compensations for each one of the covered client-claimant.

### 3.6 Unjustifiably paid compensation

The Fund may demand at any time from a covered client to return the compensation paid, if they find out some posteriori that there was a reason to reject the application in the first place.

### 3.5 3.7 Fixing of the amount of payable compensation

To ascertain the claims of a claimant against a member of the Fund, as well as any counter claims of the member of the Fund against the claimant, the records kept, and the particulars issued by the member of the Fund as well as the supporting evidence provided by the claimant are also taken into consideration.

The amount of the compensation payable to each covered client, is calculated according to the legal and contractual terms governing the relation between the covered client and the member of the Fund and is subject to the set-off rules applied for the calculation of the claims between the covered client and the member of the Fund.

The valuation of the financial instruments pertaining to the compensation payable to the covered client is carried out based on their value on the day:

- ✚ of publication of the court or
- ✚ of publication of the decision of CySEC.

The calculation of the payable compensation derives from the sum of total established claims of the covered client against the member of the Fund, arising from the total of covered services, provided by the member and regardless of the number of accounts he is the beneficiary of, the currency and place of provision of these services.

Where the amount of the claim determined under this Regulation exceeds the amount of twenty thousand Euro (EURO20.000), the claimant receives the compensation of a lump sum of twenty thousand Euro (EURO20.000).

### 3.8 Valuation of claims of covered clients and its notification process

Upon completion of the evaluation, the Fund:

- ✚ issues minutes, listing the clients of the member of the Fund, which are the beneficiaries of the compensation amounts, along with the amount of money each one of them is entitled to receive, and, communicates this information to CySEC and the member of the Fund within the time of five working days from its issue; and
- ✚ communicates its finding, to each affected client and not later than fifteen days from the issue of the minutes mentioned above, determining the total compensation amount each client is entitled to receive.

CySEC, to ensure that the provisions of the legislation in force, in the Republic, are met during the examination of the applications and verify the calculation of the respective amounts of compensation per covered client, may:

- ✚ request from the Fund, the member of the Fund and the claimant to provide information and particulars
- ✚ carry out investigation if deemed necessary, under the relevant provisions of CySEC (Establishment and Responsibilities) Laws of 2001 and 2002, as in force, and especially those provisions enacting the powers of the CySEC for entry and investigation.

Where there's a case the claimant, to whom the Fund communicates the total compensation amount he is entitled to, disagrees with the Fund's decision, he then reserves the right to appeal to CySEC, justifying sufficiently the alleged claim, within ten days from the date of the communication of the decision.

Where the CySEC finds errors or inaccuracies in the evaluation of the applications for the payment of compensation and the fixing of the compensation for each claimant, that were carried out by the Fund, and taking into consideration any memos submitted by the claimants, may demand that the Fund corrects the payable compensations; this decision is communicated to the Fund within forty-five days from the communication of the relevant minutes to the compensation beneficiaries by the Fund.

### 3.9 Deadline and procedure relating to the payment of compensation

The Fund is obliged to compensate each covered client-claimant within three months from the date the minutes with the compensation beneficiaries were sent to CySEC.

The payment of the compensation by the Fund is deposited to a bank account owned by the covered client-claimant as advised by the latter in writing, to the Fund.

Every compensation payable to a covered client burdens the property of the Fund corresponding to the individual shares of its members first, and then the assets of the fixed reserve.

### 3.10 Effects of payment of compensation

The payment of any compensation by the Fund, entails ipso jure subrogation of the Fund within the terms of the rights reserved by the compensated covered client-claimant against the member of the Fund, with an amount equal to the compensation payable thereto.
